Community Change Collaborative (C³) Grants
Theme: Equitable Cities

KEY DATES
10/28/21 RFP Released
12/15/21 11:59PM EST Proposals Due
12/20 - 3/21/22 Review Period
03/21/22 Awardees Announced
05/10/22 Program Start Date

Total Program Budget: $50,000; Up to 5 awards will be made

The Community Change Collaborative connects and amplifies community-engaged research across UC by building a research community, providing support, and sharing knowledge. To reach these goals, the Collaborative seeks to incentivize interdisciplinary community-engaged research that contributes not only academic knowledge but also solutions to real-world problems. This funding opportunity supports research action teams comprised of faculty and community partners that will conduct pilot research to inform external funding proposals. This program will follow a one-stage, full proposal/application process. This program is open to teams of faculty from all UC colleges. Application budget limit: $20,000.

The theme of this year’s funding is “Equitable Cities.” Research action teams will work towards the most pressing needs of Cincinnati and other urban communities. Applicants may look to the principles outlined by Wolff et al. 2017 in describing collaborative efforts contributing to equitable cities.

Eligibility & expectations:

- To increase potential for community relevance and impact, all proposals must have a community partner. Applications should include a letter of collaboration from the community partner delineating their role in the project.
- Action Teams of two or more faculty from different disciplines can apply, with priority given to cross-college collaborations.
- One faculty member will serve as Corresponding Faculty. Corresponding Faculty must be a UC faculty member with at least an 80% FTE appointment.
- Faculty holding a primary appointment in one of UC’s affiliates (CCHMC, VA and Shriners) are eligible to contribute effort to a team but may not be the Corresponding Faculty.
Proposal submission
Applications will be submitted online via Wizehive, a user-friendly, internal funding software. When the application is available on the Wizehive platform, the live link to apply will be posted at https://research.uc.edu/funding/overview.

Proposal requirements
Proposal must include the following sections (4 pages maximum):

- Project Working Title
- Action Team members, including affiliation and contact information for Corresponding Investigator, other participating faculty, and community partner
- Statement of Problem and Community Importance
- Alignment with Equitable Cities theme
- Approach/Methodology
- Expected Outcomes (Academic & Community)
- Next steps, including specific external funding mechanism(s) for which the proposed project will serve as the pilot

Other required documents (not included in 4-page proposal maximum):

- Detailed budget
- Collaboration Plan & Timeline
- Letter of collaboration from community partner
- Research Protocol Compliance Check-In questions
  - View policy regarding participant compensation

Official Review Criteria

- Relevance and importance of problem to community
- Potential to contribute to more equitable cities
- Strength of team partnership and fit to proposed research
- Strength and feasibility of approach
- Alignment between proposed budget and expected outcomes
- Potential for external funding

Awards
The application budget limit is $20,000. Award amounts vary. The award period for this program is 12 months, starting 5/10/22. The Office of Research Director of Business Affairs will contact awardees’ College business managers to facilitate transfer of funds upon awardees’ acceptance of awards. Funds are transferred to the corresponding investigator’s college business office who works with awardees to expend the funds in alignment with the proposed budget. Upon completion, awardees will submit a one-page final report. Final reports are due June 1, 2023.

In addition to funding, grant awardees will receive support and resources from the Community Change Collaborative co-leads and the growing network of community-engaged researchers across UC. To help develop this network and facilitate future funding, grant awardees are asked to commit to the following activities:

- Present at UC’s Research and Innovation Week;
- Participate in 2 Action Team collaboration meetings over the course of the 12-month funding period;
- Serve as a reviewer on the C3 grant panel in the year following the award
Review & Selection Process
Each proposal will be reviewed by a team of faculty and community reviewers with expertise in interdisciplinary community-engaged research. The review team will make recommendations to the Vice President for Research for final approval.

Grant Conditions
1. All work resulting from the internally funded research effort must acknowledge “University of Cincinnati, Office of the Vice President for Research – Community Change Collaborative Grant Program” as project funding source.
2. Project duration is 12-months. Requests for extensions that are appropriately justified and submitted in writing to the program officer will be considered. Extensions will not be granted after May 1, 2023.
3. Allowable costs are those listed in the proposal budget that were approved by the review panel and Community Change Collaborative program directors. Please note: Neither indirect costs nor graduate or undergraduate student tuition can be charged to research funded via Office of Research funds.
4. Grant funds cannot be used for direct support of CCHMC, VA or Shriner’s employees and/or for supplemental salary for UC faculty.
5. A financial report will be provided from the PI’s department at the end of the 12-month period. Expenses at the conclusion of the project will be reviewed and all unused funds will be returned to the Office of Research for reallocation toward future awards.
6. It is expected that awardees will participate in other activities such as proposal reviews for this program or other internal funding opportunities out of the Offices of the Vice President for Research in the future.
7. It is expected that awardees will complete end-of-funding survey reporting outcomes.

RFP is open on October 28, 2021. Proposals are due December 15, 2021, 5:00 pm EST.
