The Graduate College and the Office of the Vice President for Research are pleased to announce the 2023-2024 RFP for the University Research Council (URC) Graduate Student Stipend and Research Cost Program for Faculty—Student Collaboration.

The URC funding program is UC's oldest and most prestigious internal funding mechanism. Since 1971, the URC has worked in partnership with the Vice President for Research to advance high-potential research, scholarship and creative work, including that conducted by our graduate students. Following in the Teacher-Scholar model of graduate education, this URC program provides summer stipend support to outstanding graduate students plus funds to support related research costs working in collaboration with a UC faculty member. A total award of \$7,500 is available to each applicant. Stipend support of \$6,500 will be provided to the graduate student plus up to \$1,000 for research costs payable to the department.

Review & Selection Process

Each URC proposal will be reviewed by a team of faculty reviewers. The review process will be managed such that no conflict of interest issues arise. The URC review panel recommendations for funding will be assessed by the Office of Research before recommendations for awards are given to the Vice President for Research for final approval and funds distribution.

Program Directors

The number of applications submitted through each graduate program is limited, and there is a requirement for a pre-review by the department/college of the applicant. The number of applications that can be submitted per graduate program will be shared separately by the Office of Research. Applications require approval of the graduate program through completion of the “Graduate Program Director Form”, which certifies that the submission is within the allowable limit.

Deadlines for internal proposal review and format requirements are set by each graduate program.
